# SWING DOORS

***Swing Doors for Passenger and Goods Lifts  
with Concealed Door Hinges***

## Swing Doors for Passenger and Goods Lifts with Concealed Door Hinges

# SWING DOORS

## DT 37/1

This single-panel swing door with variable passage dimensions, frames, transom heights and frame widths is ideal for installation in narrow lift shafts or existing door recesses without necessitating any major modification measures at the site.

## DT 37/1 Bellevue

This elegant designer door in sturdy construction is built to satisfy the highest aesthetic demands in residential locations and is also available in variable dimensions.

## DT 37/2

This two-panel swing door is offered in variable dimensions, to accommodate larger loading widths and heights.

The closing edge of the door is available with or without an overlap. In the standard construction, the right-hand door panel is the last-closing one, but the left-hand panel can also optionally be selected.

Both door panels can have either a symmetrical or an asymmetrical construction.

## Overview of Dimensions Swing Doors with Concealed Door Hinges

Door Model	Door Width	Door Height
DT 37/1	DW = 700 - 1500 mm	DH = 2000 - 2300 mm
DT 37/1 Bellevue	DW = 700 - 1000 mm	DH = 2000 - 2100 mm
DT 37/2	DW = 1200 - 2500 mm	DH = 2000 - 2500 mm

MEILLER swing doors comply with EN 81-20/50 and (depending on door model and dimensions) are also available in a fire-tested construction pursuant to EN 81-58.
